

➤ EDUCATION

- **IGNOU University**

Bachelor of Computer Applications (BCA)
Currently Pursuing

- **Satyawatie college (evening), Delhi University**

Bachelors in Arts, Economics and Political Science (First Division)

July 2023

- **Kendriya Vidyalaya**

Completed 10+2 in Non-Medical Stream
Studied fundamentals of computer science, including Python basics, NumPy, Pandas, functions, and classes.

July 2020

➤ LEETCODE

- **Platform:** Leet Code
- **Achievements:** Solved over 200 questions, earned 4 badges, and actively participates in daily challenges
- **Languages:** Java, MySQL

➤ PROJECT

- ◆ **Java Mini Projects**

- ❖ Developed mini projects to reinforce DSA fundamentals and OOPs concepts in Java:

- **Number Game:** Created an interactive game using arrays and functions.
- **ATM Interface:** Implemented an ATM interface with string manipulation and constructors.
- **Student Grade Calculator:** Designed a tool to calculate student grades using arrays and object-oriented principles.

- ◆ **E-Commerce Website**

- Built a fully responsive e-commerce website as part of a frontend development project, incorporating HTML, CSS, JavaScript, Bootstrap, and Ajax to enhance user interaction and functionality.

➤ CERTIFICATION

- **Data Structures and Algorithms (DSA) in Java**Completed - Coding Blocks, Dec 2023

Topics: Arrays, Strings, OOPs, Time and Space Complexity, Stack, Queue, Dynamic Programming, Graphs, Trees, Linked Lists, Recursion, Searching and Sorting Algorithms, etc.

- **Data Science and Machine Learning** Currently Pursuing - Coding Blocks

Topics: Python, Mathematics (Probability, Linear Algebra, Vectors, Matrices), Linear Regression, Logistic Regression, Naive Bayes, K-Means Clustering, K-Nearest Neighbors (KNN).

- **Frontend Development Specialization**Completed -Johns Hopkins University on Coursera, Oct 2024

Skills: HTML, CSS, JavaScript, Bootstrap, Ajax

➤ TECHNICAL SKILLS

- **Programming Languages:** Java, Python, JavaScript
- **Data Science and Machine Learning:** NumPy, Pandas, Probability, Linear Algebra, Vectors, Matrices, Linear Regression, Logistic Regression, Naive Bayes, K-Means, KNN
- **Web Development:** HTML, CSS, Bootstrap, Ajax

- **Data Management:** MySQL
- **Tools and Platforms:** Git, GitHub
